WELCOME TO APEX

Welcome to APEX Financial Empire. You are not just joining an insurance agency. You are stepping into one of the most performance-driven, skill-focused, virtually-operated life insurance teams in the country.

OUR MISSION

SKILL	SPEED	PRODUCTION	LEADERSHIP	ACCOUNTABILITY
-------	-------	------------	------------	----------------

WHO THIS IS FOR / NOT FOR

NOT FOR YOU IF...	MADE FOR YOU IF...
You only want to work part time	You want to make \$8–10K+ per month
You are uncomfortable with high standards	You are coachable and follow the system
You constantly need to be chased	You are competitive and want to win
You just want to test the waters	You take personal responsibility
	You want long-term growth and leadership

THE APEX STANDARD

The standard inside APEX is serious production. If your goal is not to make **\$8,000 to \$10,000+ per month minimum** from life insurance, this team is probably not the right fit.

CAREER PATHS & INCOME POTENTIAL

PATH	MONTHLY PRODUCTION	YEAR 1 COMMISSIONS	LONG-TERM RESIDUAL
Producing Agent	\$20K ALP	\$120K–\$180K	\$25K–\$60K+/yr
Sniper	\$40K+ ALP	\$150K–\$300K	\$75K–\$150K+/yr
Top Producer	\$40–60K+ ALP	\$250K–\$500K+	\$100K–\$200K+/yr

Team Builder	Personal + Team Overrides	\$250K–\$1M+	\$150K–\$500K+/yr
Agency Leader	Personal, Team, Leadership	\$500K–\$1M+	\$300K–\$1M+/yr

Income varies by state, licensing, effort, carrier approvals, skill level, placement, chargebacks, and consistency. These are examples, not guarantees.

Getting to your first sale as fast as possible is the goal. Follow your path exactly.

LICENSED AGENTS

01

Complete the APEX Evaluation Form

Required before anything else.

02

Fill Out AgentLink Contracting

Complete your profile to 100%. Once at 100%, contracts are automatically sent — no manual request needed.

03

Complete the APEX Closer Onboarding Course

Learn the system before you touch a single lead.

04

Begin Team Training on Discord

Cameras on. Show up. Take notes. This is where skills are built.

05

Learn the APEX Sales System

Study the script. Read Way of the Wolf by Jordan Belfort. Know the Straight Line Method.

06

Get Released from Training

Your manager clears you when you are ready. This is earned, not automatic.

07

Start Producing — Day One

Get your Readymode login. Get in InsuraCloud. Start dialing at 8 AM.

UNLICENSED AGENTS

01

Complete the APEX Evaluation Form

Required first step.

02	Purchase the XCEL Life Insurance Course This gets you exam-ready.
03	Send Screenshot Proof of Course Access Show your manager you are moving.
04	Start the Course Immediately Do not sit on it. Start the same day.
05	Complete All Course Requirements Do the work. Every module.
06	Schedule & Pass Your State Exam Book it before you feel ready. You will be ready.
07	Apply for Your State License File immediately after passing.
08	Begin APEX Onboarding Follow the licensed agent path starting at Step 2 above.

**If you are serious, move today. Top candidates are selected by action,
not interest.**

Most agencies are still built around door knocking, hand dialing, and outdated systems. APEX is built for the future of virtual life insurance sales.

01 — READYMODE POWER DIALER

Readymode is a multi-line predictive dialer that connects you to a live person every 15–30 seconds. Click ready — the dialer does the rest. This is your primary weapon.

- **1 page = 24 connected calls** — this is how APEX measures daily activity.
- **4 dialing modes:** Preview, Power, Progressive, Predictive.
- **Auto call recording** — every call recorded for review and coaching.
- **DNC compliance** — automated Do Not Call list management.
- **Caller ID reputation monitoring** — Readymode iQ protects your connection rates.
- **Real-time reporting** — pages, talk time, performance all tracked. No paper needed.

02 — INSURACLOUD CRM

Your all-in-one command center. Every client, contract, commission, follow-up tracked in one place.

- Track clients and policy statuses
- Monitor commissions and contracts
- Manage follow-ups and pending business
- Track full agency activity as you build your team
- Access from anywhere — fully virtual

03 — AI RETENTION SYSTEM

Your book of business is your most valuable asset. The AI Retention System protects it automatically.

- Automated emails, texts, and birthday cards to every client
- AI lapse assistant contacts pending and lapsed clients proactively
- When a client is ready to fix their policy, the call transfers directly to you
- **Every client must be entered in the CRM correctly for this system to work.**

04 — IN-HOUSE LEAD SYSTEM

APEX runs weekly lead campaigns. You will never run out of people to talk to.

- **Final Expense Leads — \$250/week:** 100,000+ lead pool, weekly campaigns
- **Veteran Association Leads — \$500/week:** Higher quality, more financially prepared prospects

05 — FAST ELECTRONIC APPLICATIONS

Speed is money. Our e-app system removes friction and gets you paid fast.

- 5-minute electronic applications
- Multiple next-day pay carriers
- Complete the app without submitting for unlicensed states — see Section 15

06 — DISCORD

Discord is the operating system of APEX. All meetings, training, and communication happen here. Get it. Learn it. Live in it.

- Daily team meetings 9:30 AM — cameras on, unmuted
- Training immediately following every team meeting
- 6 PM film review Mon–Thu for agents who did not close

These are not suggestions. They are enforced, non-negotiable, and what separates serious agents from everyone else.

CAMERA ON — ALWAYS	Cameras on while dialing, in meetings, and in training. No exceptions. This is how we hold each other accountable and build a real team culture.
UNMUTED ON DISCORD WHILE WORKING	Stay unmuted while dialing. The energy is contagious.
9:30 AM TEAM MEETING — MANDATORY	Monday through Friday. 30–45 minutes. Show up on time, camera on, locked in.
LATE = DISCIPLINARY ACTION	Being late communicates that your time is more valuable than everyone else's. It isn't.
NO-SHOW = FIREABLE OFFENSE	Missing team meeting without prior communication to your manager is grounds for removal. No exceptions.
NO CAMERA = FIREABLE OFFENSE	Refusing to turn your camera on means you are not held to the APEX standard.
ZERO TOLERANCE FOR NEGATIVITY	One negative person can poison an entire team. Bring concerns to your manager privately. In team space: positive, competitive, locked in.

The standard inside APEX is not just about production. It is about showing up every single day as a professional.

Structure creates freedom. A scheduled agent will always out-earn an unscheduled one.

MONDAY — FRIDAY

8:00 AM	START DIALING	Get your first presentation in before team meeting.
9:30 AM	TEAM MEETING	Mandatory. Discord. Camera on. 30–45 minutes.
After Meeting	TEAM TRAINING	Directly following the meeting. Skills are built here.
All Day	DIAL & PRESENT	Back on the dialer immediately. Push through the 4 PM wall.
6:00 PM	FILM REVIEW (Mon–Thu)	For agents who did not close. Review calls, find breakdown, fix it.

SATURDAY — SALES BLOCK: 8:00 AM – 1:00 PM

Clients are home, they just got paid Friday, and most agents are sleeping in. That's your edge. Show up. Dial hard. Close.

SUNDAY — PREPARE TO WIN

- Map out your full schedule for the week — hour by hour
- Review previous week numbers: pages, presentations, ALP
- Handle personal errands so they do not eat into calling time
- Set your income goal and break it into daily targets
- Get your mind right — MBS, journaling, gratitude

DAILY MINIMUMS — THE STANDARD

12+	3+	\$5K+	1+
PAGES/DAY (Week 1)	PRESENTATIONS/DAY	ALP/WEEK (minimum)	CLOSE/DAY (the standard)

Closing daily is the STANDARD — not the goal. Not closing? Get to film review and find out why.

06

THE NUMBERS GAME

Sales is not about feelings. It is about math. When you understand the numbers, rejection becomes irrelevant.

WHAT IS ALP?

ALP = Annualized Life Premium. Total amount a client pays over one year. How all production is measured at APEX.

Example: Client pays \$125/month $\times$ 12 = **\$1,500 ALP**. This is the average sale size at APEX.

THE APEX NUMBERS

\$1,500	6	24	\$5K+
AVERAGE SALE (ALP)	PAGES TO CLOSE A DEAL	CONNECTED CALLS PER PAGE	WEEKLY MINIMUM

THE MATH

1 page	=	24 connected calls on Readymode
6 pages average	=	1 closed deal
12 pages/day	=	~2 deals per day potential
\$1,500 ALP $\times$ 5 sales/week	=	\$7,500 ALP/week
\$5,000 ALP/week $\times$ 4 weeks	=	\$20,000 ALP/month

REFERRAL MATH

Always collect referrals after every sale. They convert dramatically faster than cold leads.

METRIC	COLD LEADS	REFERRALS
Pages to close	~6	~3

Calls to set appointment	~30	~5
Close rate	~33%	~50%+

Readymode tracks every page and records every call automatically. No paper tracking needed.

The biggest separator between top producers and average agents is not skill. It is mindset.

MIND. BODY. SPIRIT. — THE MORNING FOUNDATION

- **Wake up early** — before the world starts, before distractions hit
- **Thank God** for another day and read a chapter of Proverbs
- **Get to the gym** — exercise is your energy source and your confidence
- **Pray and listen** — 5–10 minutes of spiritual development
- **Read 10 pages** of a growth book: *Way of the Wolf*, *As a Man Thinketh*, *Be Obsessed or Be Average*
- **Be ready to work by 8:00 AM** every weekday

EMOTIONAL CONTROL

- Never get too high or too low. Emotional evenness is how professionals operate.
- A cancelled sale should not destroy you. A no-sale day should not change your energy.
- Control what you can: activity, effort, and attitude. Nothing else.

ZERO TOLERANCE FOR NEGATIVITY

- Negativity is contagious. It kills production — yours and the whole team.
- Bring concerns to your manager privately. In team space: positive, competitive, locked in.
- No complaining, blaming, or defending. Period.

EXTREME OWNERSHIP

- Everyone winning at APEX started exactly where you are — same leads, same script, same comp.
- The problem is almost always work ethic, mindset, or skill. Fix all three.
- Nobody is coming to save you. It is you vs. you.

GOING ALL IN

- This requires a 12-month full commitment. Half-in effort produces half-in results.
- The first 1–3 months are the hardest. Volume creates competence. Push through.

- Replace the word sacrifice with investment. The return is massive.

BE A STUDENT

- Every no-sale is either a win or a lesson. Never just an L.
- You improve through evaluated repetition — not just repetition.
- Watch your call recordings. Fix one thing each day. Never make the same mistake twice.
- Ask questions. Reach out to your upline. Do not suffer in silence.

WHO TO TAKE ADVICE FROM

- Never take financial advice from someone making less than you want to make.
- Only listen to people you would genuinely trade places with.
- The best agents on the team have the best advice. Model what they do.

This is the message every new agent gets the day after they are released. Read it. Then read it again.

Best way to go crazy is to do what KJ did.

First off — ask for your dialer login early so you can start calling before the team meeting. Start dialing at 8 AM. Try to get a presentation in before 9:30. Get into at least 3 presentations a day. A presentation means you have gotten to at least the social part of the script.

Do not be doing anything under 11–12 pages a day first week.

It's gonna be hard work and you're probably going to be tired. More reps build stamina — and once you get used to dialing and talking to clients, it becomes easy. DoorDash food instead of leaving mid-day. Drink an energy drink when you start. Listen to music between calls. High energy and confidence on EVERY single call.

After 4 PM you are going to start getting tired. Push through. That is where the edge is.

These people do not know you. Do not take anything personal. If they hang up or curse you out — move to the next. That is why we have unlimited leads. Assume everyone is buying. The last deciding factor is how well YOU do your job.

LETS FUCKING GO.

KJ'S PERSONAL DAILY RULES

2 SALES BEFORE 6 PM	Done early. You earned it. Go recharge.
1 SALE BY 6 PM	Stay on. Keep pushing for 2. The second one is closer than you think.
0 SALES AT END OF DAY	Call until 7 PM. Review calls with upline. Find the breakdown. Call early next morning.

WEEK 1 & 2 — BUILD THE FOUNDATION

- Weeks 1 and 2 are about reps, not perfection. Volume first, refinement second.
- The learning curve is steep early. Volume compresses it — dial more, not less.
- Stamina is built through repetition. Your first day will be harder than your 30th.
- Do not leave mid-day. Stay in the chair. Every call is a rep.
- Review your recordings at night. Fix one thing each day.

The APEX sales system is built on the Straight Line Sales Method by Jordan Belfort. This is not just a script — it is a precision system for closing sales, every time.

REQUIRED READING: WAY OF THE WOLF

By Jordan Belfort. The APEX sales script is built on the Straight Line Sales Method from this book. Every APEX agent is expected to read it.

WHY THE SCRIPT WORKS

- The script is proven to produce a minimum 1/3 close ratio over decades of use.
- Anytime an agent has a bad week, 9 times out of 10 it is because they went off script.
- Reading it word for word is the only way to guarantee consistent results.
- You do not need special talent — you need the script plus high energy.
- Being on script makes the process duplicable. When you recruit, new agents replicate it immediately.

HOW TO DELIVER THE SCRIPT

- **Sound natural, not robotic.** Know it so well it sounds like your own words.
- **Add enthusiasm and energy on every call.** Monotone kills deals.
- **Use tie-downs every 2–3 sentences:** "Does that make sense?" / "Pretty cool right?" — keep the client engaged.
- **A presentation = getting to at least the social part of the script.**
- **Never interrupt yourself.** Let the script breathe.

THE THREE ELEMENTS OF EVERY CLOSE

CONTROL

From the moment you connect, you lead. Be pleasant but always direct and authoritative. You are the expert.

COMMON SENSE

Read the situation. Adjust pace and emphasis to what the client responds to. The script is the foundation — common sense is the application.

DESIRE

Paint a picture. Help the client visualize what happens to their family without this policy. Desire is created by conviction and storytelling.

An objection is not a no. It is a question in disguise. Master these and your close rate climbs immediately.

THE FEEL, FELT, FOUND METHOD

FEEL	FELT	FOUND
"I understand how you feel..."	"A lot of members have felt the same way..."	"But what they found out was..."

Never go against the client — go around them. Acknowledge, relate, redirect.

COMMON OBJECTIONS & RESPONSES

"I want to think about it."

People only think seriously about life insurance three times: when someone close dies, when they get a health scare, or when you show up. After you hang up, it goes back to the backburner. Most members find this level very manageable — does that work for you?

"I can't afford it."

The one adjustment your family could never make is if you were no longer here. The premium is a small adjustment you can handle today to protect them from one they could never handle. Is \$X per week going to change your lifestyle?

"I already have insurance."

That's great. But income is what protects your family, and you can never truly have enough covered. The question is really just comfort — would \$X/week be manageable?

"We're not buying anything."

No problem at all. My job is just to explain your benefits and make sure you're caught up with everyone else. All I need you to do is listen.

"I want to talk to my financial advisor first."

Your advisor makes commissions on what he recommends. Over 20,000 unions independently reviewed and approved this program with no financial incentive. For now the benefits are here and you qualify — does it make sense to get covered?

"I don't think we need this right now."

Nobody needs it until they do. This is the only product you can only buy when you don't need it. What \$X/week costs you now is nothing compared to what it means to your family when that moment comes.

"What do you think, honey?"

Turn to the one being asked. Remind them the main thing is getting in on the benefits while keeping it comfortable. Most members enroll at this level — does that work for both of you?

POWER PHRASES THAT CLOSE

- *"If you give me 1% of your confidence, I'll earn the other 99%."*
- *"The only regret you'll have about this in years ahead is that you don't have more."*
- *"You can choose to be concerned about this today — or be forced to be concerned in the future."*
- *"If I can't help you, I'm sure not going to hurt you."*
- *"Most members feel it's a lot easier coming up with a few dollars a week now versus thousands later."*

APEX does not operate on an appointment model. We close deals live on the dialer. If someone is not available right now, get off the phone — a new live person is coming in 15–30 seconds. We have unlimited leads.

THE APEX MODEL — NO APPOINTMENTS

- Every sale is closed live on the call — not scheduled for later.
- If a prospect is not available, mark correctly and move on. Another live person is coming in seconds.
- **Prime time at APEX is MID-DAY.** The majority of our clients are retirees — home during business hours. Dial hard 9 AM–5 PM.
- Saturdays 8 AM–1 PM are also prime — everyone is home and Friday paychecks just hit.
- Never chase someone who is not ready right now. We have 100,000+ leads.

LEAD DISPOSITIONS — HOW TO MARK LEADS

Marking leads correctly is critical. Wrong dispositions corrupt the lead pool and hurt the entire team.

NOT AVAILABLE	Could not connect. Try again at a different time.
SOCIAL OBJECTION	Client pushed back during the opening/social part of the script.
BANK OBJECTION	Client resistant about providing banking information.
I GIVE UP	All reasonable attempts exhausted. Moving on.
SPANISH SPEAKER	Flag for Spanish-speaking agent follow-up.
DO NOT CALL ■■	EXTREME CIRCUMSTANCES ONLY. Manager must approve first. Misuse = dialer shut off immediately.

■■ DO NOT CALL — NON-NEGOTIABLE Do NOT press Do Not Call without explicit manager approval. Misuse = dialer shut off immediately. This is a fireable offense.

"It's not how much you write — it's how much you KEEP." Your commissions, advances, residuals, and long-term wealth depend on policies staying on the books.

WHY POLICIES LAPSE

Missed or forgotten payments	#1 cause — almost entirely preventable with ACH setup.
Changed bank account	Client updated banking but forgot to notify the carrier.
Overselling	Premium was never truly affordable. Client cancels when money gets tight.
No connection to the agent	Client forgets who sold them and why. Cancellation comes easy.
Life changes	Job loss, hardship — the premium gets deprioritized.
Client did not understand	Confusion and doubt lead to cancellation.

SET IT UP RIGHT AT THE SALE

- **Always set up ACH / automatic bank draft.** Clients on autopay lapse at a fraction of the rate of manual payers.
- **Verify banking info before submitting.** One wrong digit wipes the policy.
- **Never oversell.** A smaller policy that stays beats a bigger one that lapses in 90 days.
- **Explain the policy clearly.** Clients who understand what they bought will fight to keep it.
- **Anchor value emotionally.** The client who understands the why will defend the premium.
- **Collect referrals before closing.** A client who gave referrals has skin in the game.

ALIGN DRAFT DATES WITH CLIENT INCOME

CLIENT TYPE	RECOMMENDED DRAFT DATE
Social Security Recipients	1st or 3rd of the month
Disability Recipients	2nd, 3rd, or 4th Wednesday
Payroll / Employed Clients	Align with their pay schedule

Reach out a few days before the first draft. A simple reminder prevents the surprised cancellation call.

RETENTION KPIs

KPI	TARGET	CONSEQUENCE IF MISSED
4-Month Retention Rate	74%+	Below 64% = no advance
Placement Rate	As high as possible	Unplaced apps = no commission
Lapse / Chargeback Rate	Minimize	Comes directly out of paycheck
Policy Reviews	Annual per client	Forgotten client = cancellation risk

Understanding how you get paid is not optional. Every APEX agent needs to know this cold.

ALP = Annualized Life Premium. Client pays $\$125/\text{month} \times 12 = \$1,500$ **ALP**. You earn approximately **50%+** of what you write. Average APEX agent produces **\$20,000+/month**.

■ When do I get paid?

Most carriers pay within 24–72 hours of policy approval and first draft if you are on an advance. Clean apps = fast money.

■ What does "advance" mean?

Most carriers front you 75% of your entire first-year commission upfront. The remaining 25% is paid in months 9–12 once the policy proves it will stay. The advance is a loan against future commissions — which is why retention directly affects your income.

■ What is a chargeback?

If a client cancels within the first year, the carrier takes back the unearned portion of your advance.

Example: $\$100/\text{month}$ policy → $\$900$ advance (75%). Client cancels after 3 months → you earned $\$225$, you owe back $\$675$. Comes out of your next paycheck.

Note: Some carriers issue a 100% chargeback if the policy cancels within the first 3 months. Know your carriers.

■ How do I avoid chargebacks?

- Make sure the payment is genuinely comfortable
- Align draft dates with their income cycle
- Call the client before the first draft
- Verify all banking info before submitting

■ Do I earn renewals?

Yes. Depending on the product, you earn renewal commissions annually as long as the policy stays active. This is the long game. The more clean business you protect, the more your passive income compounds.

MANAGER OVERRIDE STRUCTURE

Managers earn 15–20% of team production. **Rule of thumb: ~\$3,000/month per producing agent on your team.**

TEAM SIZE	TEAM PRODUCTION	MONTHLY OVERRIDES	WITH PERSONAL PROD.
10 Agents	\$200,000/mo	~\$30,000/mo	~\$40–45K/mo
33 Agents	\$660,000/mo	~\$100,000/mo	\$110K+/mo
100 Agents	\$2,000,000/mo	~\$300,000/mo	\$310K+/mo

The beauty of building a team is that you can have a personally bad day — but if your team had a great day, you had a great day.

THE 4 PILLARS

SELL	Write a lot of life insurance. Get elite at it. ALP = Respect. You cannot recruit your way out of not producing.
RECRUIT	Bring in new agents constantly — licensed or unlicensed. Target 2+ per week. Start immediately.
TRAIN	Turn new agents into producers. Your agents' success is your success. Get them to their first close.
DEVELOP	Build new leaders who duplicate you. Create systems to scale. Build something bigger than yourself.

INSTAGRAM — YOUR #1 RECRUITING FUNNEL

Instagram is your digital real estate. Every post is a potential income stream. Start building it immediately.

- **People follow people they want to be like.** Sell a lot first. ALP = social proof.
- **Post stories daily** — your sales, team sales, lifestyle, the journey.
- **Best story arc:** Where I was → Decision I made → What I went through → Where I am now.
- **Record B-roll constantly** — nice areas, cars, watches, buildings. iPhone is enough.
- **Ignorance on fire beats knowledge on ice.** Start before you feel ready.

THE REELS METHOD

01	Open Edits app or CapCut
02	Search: ecom, dropshipping, entrepreneur, or similar

03	Find high-performing posts (100K+ views / 10K+ likes)
04	Click the sound → extract audio
05	Replace their footage with your own B-roll
06	Copy the text exactly — classic medium font with outline text
07	Post to Trial Reels, 2–3 per day
08	1K+ views = share to everyone. Under 1K = flop, move on

THE INCOME MATH

~\$3,000/month per producing agent on your team.

TEAM SIZE	MONTHLY OVERRIDE INCOME
5 Agents	~\$15,000/month
10 Agents	~\$30,000/month
25 Agents	~\$75,000/month
50 Agents	~\$150,000/month
100 Agents	~\$300,000/month

Every state license you hold is a new market you can dial into. Same dialer, same script. More licenses = more income.

CLOSE FIRST, LICENSE SECOND

STEP 1	Close the deal on the call	Run your full presentation. If they are ready to buy, proceed.
STEP 2	Collect all client info	Full name, DOB, SSN, driver's license, bank info, draft date, beneficiary.
STEP 3	Complete app — do NOT submit	Fill everything out and save. Do not submit until licensed.
STEP 4	Purchase the non-resident license	See pricing guide below. Many process same day.
STEP 5	Submit once licensed	The moment your license clears, submit and get paid.

A single closed deal in almost any state covers the license cost many times over.

2025 NON-RESIDENT LICENSE FEES

EASTERN TIME ZONE

Ohio \$10	Michigan \$10	Virginia \$15	S. Carolina \$25

Rule: Ohio and Michigan at \$10 each are a no-brainer. Illinois at \$380 — weigh your volume potential first.

THE APEX STANDARD

This is not a job.

It is a business you are building.

The price is real. The reward is real.

Pay the price.

Skill. Speed. Production. Leadership. Accountability.
